About This Guide

Anti-Spam is a licenced feature of your Smoothwall System.

This manual provides guidance for upgrading Anti-Spam.

Audience and Scope

This guide is aimed at system administrators maintaining and deploying Anti-Spam.

This guide assumes the following prerequisite knowledge:

- An overall understanding of the functionality of the Smoothwall System
- An overall understanding of networking concepts

Note: We strongly recommend that everyone working with Smoothwall products attend Smoothwall training. For information on our current training courses, contact your Smoothwall representative.

Organization and Use

This guide is made up of the following chapters and appendices:

- *Chapter 1, Upgrading* on page 3

Conventions

The following typographical conventions are used in this guide:

Item	Convention	Example
Key product terms	Initial Capitals	Anti-Spam

Item	Convention	Example
Cross-references and references to other guides	Italics	See <i>Chapter 1, Upgrading</i> on page 3
Filenames and paths	Courier	The <code>portal.xml</code> file
Variables that users replace	<i>Courier Italics</i>	<code>http://<my_ip>/portal</code>

This guide is written in such a way as to be printed on both sides of the paper.

Related Documentation

The following guides provide additional information relating to the Anti-Spam feature:

- *Anti-Spam Installation and Administration Guide* explains how to install and use Anti-Spam
- <http://www.smoothwall.net/> contains the Smoothwall support portal, knowledge base and the latest product manuals.

1 Upgrading

In this guide:

- Prerequisites and support information
- How to upgrade to the latest version of Anti-Spam

Prerequisites

To upgrade to the latest version of Anti-Spam, you need:

- All the latest updates downloaded and installed on your Smoothwall System. See your *Smoothwall System Administration Guide* for more information.

Getting Help

If you have a current support contract, contact the Smoothwall support department. Our support engineers will be happy to help. For more information, visit <http://www.smoothwall.net/support/>

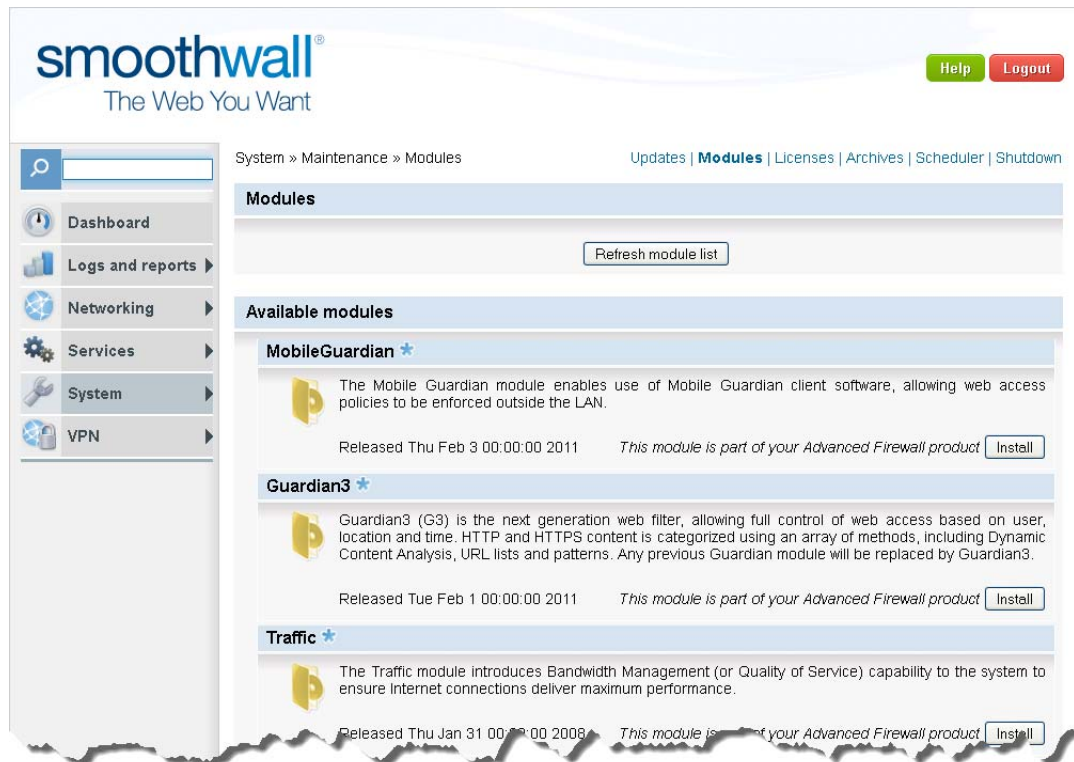

If you require a support contract, contact your Smoothwall representative or visit <http://www.smoothwall.net/> for more information.

Upgrading Anti-Spam

The following section explains how to upgrade to the latest version of Anti-Spam

To upgrade to the latest version:

1. Log on to your Smoothwall System, browse to the **System > Maintenance > Modules** page and click **Refresh module list**

2. In the Available modules area, locate **Anti-Spam** and click **Install**. Your Smoothwall System installs the latest version and migrates your current settings. The next step is to reboot your Smoothwall System.
3. Browse to the **System > Maintenance > Shutdown** page, select **Immediately** and click **Reboot**.

Once your Smoothwall System has rebooted and you have logged on, you can review your Anti-Spam settings. For more information, see your *Anti-Spam Administration Guide*.
